

FORENSIC INCIDENT REPORT

Case ID: FR-2026-210353
Date: 2026-04-22 21:03:53
Status: Investigation Complete

EXECUTIVE SUMMARY

Total Events Recorded: 240
Total Alerts Generated: 184
Suspicious Files: 230
Encrypted/Locked Files: 235
Deleted Files: 5

ATTACK TIMELINE

Time	Event	File	Details
2026-04-22 21:00:02	NEW_FILE	annual_report.txt.locked	New file detected
2026-04-22 21:00:02	SUSPICIOUS	annual_report.txt.locked	Suspicious extension .locked detected
2026-04-22 21:00:02	NEW_FILE	customer_data.txt.locked	New file detected
2026-04-22 21:00:02	SUSPICIOUS	customer_data.txt.locked	Suspicious extension .locked detected
2026-04-22 21:00:02	NEW_FILE	employee_records.txt.locked	New file detected
2026-04-22 21:00:02	SUSPICIOUS	employee_records.txt.locked	Suspicious extension .locked detected
2026-04-22 21:00:02	NEW_FILE	financial_report.txt.locked	New file detected
2026-04-22 21:00:02	SUSPICIOUS	financial_report.txt.locked	Suspicious extension .locked detected
2026-04-22 21:00:02	NEW_FILE	transaction_history.txt.locked	New file detected
2026-04-22 21:00:02	SUSPICIOUS	transaction_history.txt.locked	Suspicious extension .locked detected
2026-04-22 21:00:02	DELETED	annual_report.txt	File was deleted
2026-04-22 21:00:02	DELETED	customer_data.txt	File was deleted
2026-04-22 21:00:02	DELETED	employee_records.txt	File was deleted
2026-04-22 21:00:02	DELETED	financial_report.txt	File was deleted
2026-04-22 21:00:02	DELETED	transaction_history.txt	File was deleted
2026-04-22 21:00:07	SUSPICIOUS	annual_report.txt.locked	Suspicious extension .locked detected
2026-04-22 21:00:07	SUSPICIOUS	customer_data.txt.locked	Suspicious extension .locked detected

2026-04-22 21:00:07	SUSPICIOUS	transaction_history.txt.locked	Suspicious extension .locked detected

RECOMMENDATIONS

1. Change all cloud access credentials immediately
2. Enable Multi-Factor Authentication (MFA)
3. Review and restrict access policies
4. Restore files from clean backup
5. Conduct full security audit
6. Install endpoint protection software
